### Think, Plan & Customize

Pratibha Medinox is an Indian company specialized in the production of Pendants, Bed Head Units, Monitor Mounts (Stands); we manage the production of those medical supply units with certified quality and processes from design to manufacturing. We can also customize our products accordingly to every single project need.

Pratibha Medinox has a wide range of Bed Head Units, Pendants & Monitor Stands/Mounts to offer. All models of the Bed Head Units, Pendants & Monitor Stands/Mounts are constituted of extruded Aluminium profiles, powder coated or anodized having different compartments for mains power, low and extra low voltages and for Medical Gases. The units can be supplied in any RAL colour and include any make of electrical socket, data or Medical Gas terminal unit.

#### Design

Using CAD systems, we create technical drawings (layouts) that allow customers to decide in advance where to place the various electrical components, Data Socket & Gas Outlets. Once approved and signed by the customer, the layout becomes our official production document.

#### Production

At Pratibha Medinox, the term production refers to product quality, an important parameter related to the cost, service and value-added of the single person that works there. The production cycle starts with the bed head unit layout, signed by the customer: various Aluminum profiles are processed, with the use of numerical control machines, then taken to the paint-shop, assembled and wired, according to customer's requirements.

Pratibha Medinox is an ISO certified and produces and tests the Bed Head Units, Pendants & Monitor Stands/Mounts according to Directive 93/42/EC, ensuring the complete reliability of the product.

You are requested to fill up the 'Configuration Form' for submitting you the exact CAD Drawings of the Bed Head Units, Pendants.

Our dedicated sales and design teams are always available to help you. Our priority is to make sure we understand your specific requirements, and provide you with a solution that works first time. Fully trained and experienced fitting teams ensure the high quality and attention to detail approach are continued right through to handover of the finished product.

We are proud to have a highly skilled team of professionals who are relentless in striving to create innovative design and high end quality, which is the only standard we allow for all our medical devices and solutions.

That is why we have fully embraced the "MADE IN INDIA" philosophy: a synonym of Style, durability and tailored functionality.

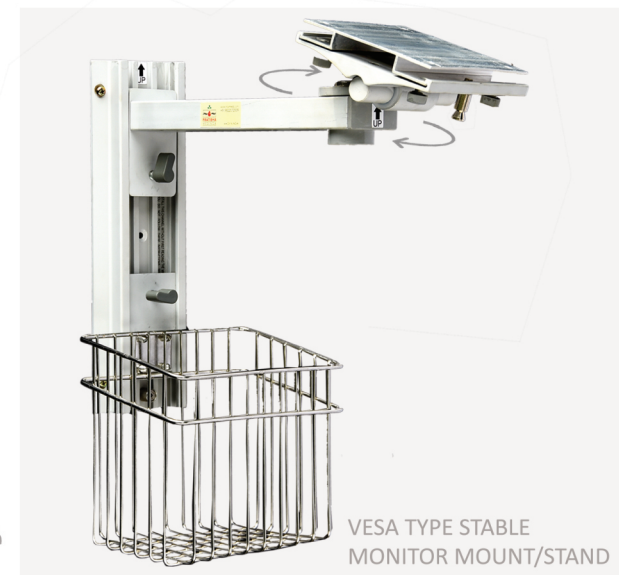

## MONITOR MOUNT/STAND

Think, Plan & Customize

TRAY TYPE MONITOR MOUNT/STAND

VESA TYPE STABLE MONITOR MOUNT/STAND

VESA TYPE SWIVEL MONITOR MOUNT/STAND

The Ideal solution for mounting any brands of vital sign patient monitor.

Material used : Aluminium profile section. It is robust and noncorrosive. The tray is made out of 2 mm thick aluminium sheet. All the fastners used are Stainless Steel.

Vesa mounts are swivel and tilt adjustments for optimal viewing angle.

Load carrying capacity is maximum 21 kilograms.

Vertical channel with monitor mount can be mounted on any appropriate equipment.

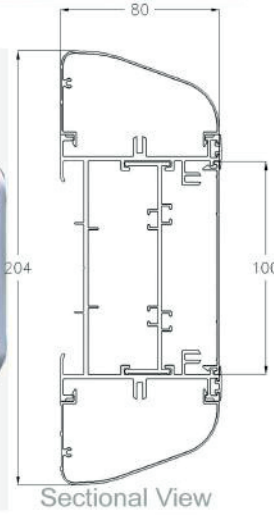

Standard component is a vertical channel in all models.

Stainless steel 304 wire basket for keeping monitor accessories is an OPTIONAL fitment.
